New Source Review newspaper advertisements for construction permit applications, November 13, 2008. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: November 11, November 12, or November 13, 2008. Public notices are generally published every two weeks. The previous publication of public notices was October 30, 2008.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is <u>Shaw Industries</u>, <u>Inc.</u> with a mailing address of <u>P.O. Drawer 2128 Mail Drop: RW-24</u>, <u>Dalton, GA 30722</u>. They seek to obtain an air contaminant permit (Division identification number: <u>26-0042-08/61912</u>) for modification of a <u>Carpet Fabricating Operation</u> located at <u>4130 Cowan Highway</u>, <u>Winchester</u>, <u>TN 37398</u>. This existing operation consists of a latex coater, oven, and associated equipment used to bond backing to carpet. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. E. King is the assigned Division person.

For the Franklin County *Herald-Chronicle* -- published once on or before Thursday, November 13, 2008.

The applicant is Pinnacle Foods Group, LLC with a mailing address of 96 Quaker Oats Drive, Jackson, Tennessee 38301. They seek to obtain an air contaminant permit (Division identification number: 57-0078-15/62402) for construction of a natural gas water heater located at the same address. This proposed operation would consist of one direct-contact natural gas water heater to replace two traditional natural gas water heaters that are currently in use. There would be physical construction. Regulated air contaminants would be emitted by this source. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. Mr. T. Krinov is the assigned Division person.

For the Madison County *Jackson Sun* -- published once on or before Thursday, November 13, 2008.

The applicant is <u>Haynes Manuals</u>, <u>Inc.</u> with a mailing address of <u>1299 Bridgestone Parkway</u>, <u>LaVergne</u>, <u>TN 37086</u>. They seek to obtain an air contaminant permit (Division identification number: <u>75-0223-06/62418</u>) for modification of a <u>Binding Operation</u> located at the same address. This existing operation consists of a binder and associated equipment used to bind the spine and sides of books. The requested modification is to replace the old binder with a new binder. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants emitted by this source would stay the same. Mr. M. Reynolds is the assigned Division person.
